

I am currently on the Indiana Do Not Call list and it has been a wonderful break from the 10 or more telemarketer calls a day. I have the RIGHT to be in my home and be free of unsolicited calls. Nothing gives these business the RIGHT to call me, I do not want to be called. Government for the people by the people, sound familiar? The People do not want to be bothered all of the time. DO NOT ALLOW the CBA an exemption to the list.
